

Chris Hull, CAWC

Loss Control Specialist

785-414-0311

Chris.Hull@AccidentFund.com

Chris joined the Accident Fund team in 2016 as a loss control consultant. In this role, he provides loss control services to policyholders in Kansas.

Chris has experience as a safety consultant in many industries, including heavy construction, residential construction and general industries. Chris' experience includes providing training to thousands of workers in Kansas on a wide range of safety topics, such as fall protection, confined space awareness and confined space rescue. In addition to experience as a consultant, Chris has worked in emergency services as a firefighter/EMT since 2008.

Chris earned a Bachelor of General Studies in public administration and political science from the University of Kansas. He has also been certified as a Competent Person for Fall Protection Inspection, Excavations and Scaffolding and earned a Certified Authority on Workers' Compensation (CAWC) designation.
